To provide more valuable information to you, we have taken the initiative to present your financial statements in a Business Advisory Report. This narrative, plain-language report highlights the areas of your business that are the strongest and those which may need improvement. It concludes with an action plan outline for reaching your financial goals.

We help your business grow and be profitable!

Get a clear picture your company's financial health.

We analyze key financial figures of your business and provide you with a plain-language written report which includes charts, graphs and a clear rating system to measure the financial health of your company. You will see how your financial situation compares to other professionals in the south giving you a better perspective.

Our Business Advisory Reports provide the perfect foundation for a business performance counseling session to help your company grow and be profitable.

Here's a sample of what we address:

- **Liquidity**—Can you meet your obligations as they come due? Do you annually budget for expected cash requirements?
- **Gross Profit and Net Profit**—Are these trends favorable? How do they compare to your peers in the industry?
- **Sales**—Are they growing and are you satisfied with their levels? Have you established sales goals for next year?
- **Borrowing**—Is it costing you more than it should?
- **Assets**—Are they being used effectively to generate a strong return on your investment?
- **Employees**—Are you hiring effectively?
